PRO DIAL - CLASS RULES

PRO DIAL • EVENT RULES

TREE & DIAL-IN	Competition will be run on a .500 Pro Tree . Pro Dial is a dial-your-own bracket class, with each driver selecting the elapsed time (ET) they expect their vehicle to run. Standard breakout rules apply.
VEHICLE RESTRICTIONS	Open to full-bodied, street-appearing cars only . Open-bodied vehicles are not permitted. All vehicles must meet applicable track and safety requirements for the elapsed time and speed being run.
PROHIBITED ELECTRONICS	Throttle stops, throttle controllers, and delay boxes are strictly prohibited.
PERMITTED EQUIPMENT	Trans-brakes and 2-step ignition/launch-control systems are permitted. Permitted equipment must not be configured or used as a prohibited delay or down-track elapsed-time control device.
STAGING	Deep staging is permitted. The auto-start system will remain activated at all times. Drivers choosing to deep stage are responsible for staging within the normal auto-start sequence.
TECH & OFFICIALS	Race officials reserve the right to inspect any vehicle or equipment for compliance. The Race Director's decision regarding class eligibility, staging procedure, or prohibited equipment is final.
